Comments for the Board = SAVE THE TREE WITH PLAN 3!

I am emailing about the Ash Tree at Mae Boyar park:
The tree has historical significance.
It is a part of this community.
Please reconsider and save the tree. It is not necessary to destroy it.
Thank you

Subject: Mae Boyar Park Ash Tree

I recently found out RSRPD wants cut down a beautiful Ash tree in Mae Boyar park. I also recently was informed there is a simple way to avoid this senseless destruction. I find it very disturbing that RSRPD is being so hasty in there desire to remove the tree. I was told three independent arborist have certified the tree to be healthy. My son grew up playing in Mae Boyar park. My wife and I enjoyed bringing him to the park on warm summer days, the tree that RSRPD wants to remove provided needed shade on those warm summer days.

I URGE the board to choose PLAN 3 to SAVE the TREE!!

Joseph LaHood

Subject: Tree

The old joke about the Suburbs is that is where they cut down all the trees and name streets after them.
Mae Boyar Park is defined by it's trees.
So... please revote on the tree.
SAVE THE TREE WITH PLAN 3!

Dear Board Members,

I request:

- 1) Redo the vote on removal of the southeasterly heritage tree in Mae Boyar Park. There is a reason these trees are designated as "Heritage Trees". We love them and they enhance the sole of our neighborhood.
- 2) Invoke Plan 3, which calls for not removing that tree and to relocated impacted playground equipment.

Thank you for your consideration,

Gene Wedge

Subject: Save the tree!

Please reconsider saving the beautiful Southeastern Ash tree. I am writing today to request a re-vote on the destruction of this magnificent tree.

I urge you to reconsider, and to NOT remove this beautiful, large heritage ash tree. I am requesting, rather, to relocate a piece of playground equipment. I am certain if requested, those of us who love our community and its' living things, would be willing to bear the cost among us for shifting the playground equipment around, rather than cutting down this healthy tree.

This tree has been giving shade and shelter us and our children, all who use the park for decades. It is a living piece of history beloved by my children and myself, home to a myriad of creatures, who live and flourish, protected in its branches. Please do not kill it because we have planned poorly in a placement decision for inanimate objects.

Thank you,
Connie Feick

Subject: Heritage Tree

To remove a healthy old tree to replace it with playground equipment is something like: remove Mickey Perman, he is old and we need his location for something else, I dont like that comment and I can speak up for myself but the tree has to rely on me/the public to speak up for it. The cost to cut the tree down and prepare the ground for playground use can be used to fix and repair any safety issue the tree and surrounding ground might need. I vote for plan "B".

Subject: Mae Boyar Tree - Save the Tree with Plan 3!

September 2, 2020

To the Board of Directors of Rancho Simi Recreation and Park District,

1. Please revote to save the Mae Boyar Park southeasterly, heritage ash tree. The change.org petition has grown to over 550+ supporters that oppose the tree removal. Attached is a PDF file of the petition signatures.

<https://www.change.org/SaveOurMaeBoyarAshTreeWithPlan3>

2. Please save the tree with alternative / plan 3 in which the Oak Park Planning Committee recommended July 9, 2020. (page 72 of 156 in 90320Packet.pdf on rsrpd.org)

All three arborist (Dr. Fred Roth, Ph.D., John Burke and James Dean) agree that the tree located in the southeasterly corner of the playground appears to be good to very-good health condition. (page76 of 156 in 90320Packet.pdf on rsrpd.org)

John Burke of Landscape Architect & Registered Consulting Arborist states in his report, "that the Ash tree 1 (the southeasterly tree) is a very healthy looking mature evergreen ash, one of the best canopy structures that I have observed in this county."

(page 96 of 189 in 080620Packet.pdf on rsrpd.org)

The southeasterly ash tree is a beautiful, healthy tree!

In 2017, the roots were not very pronounced and the park district staff decided to monitor the situation for worsening. (page 67 of 189 in 080620Packet.pdf on rsrpd.org)

The tree surface roots that grew under the rubber mat and playground should have been managed immediately back in 2017! This would have prevented the uplifting of the rubberized padding that we see today. The surface roots uplifting the rubber mat can be fixed without removing the tree.

The tree has been in Mae Boyar Park for many decades before the playground was installed in 2005! The problem is the rubberized padding and placing the play structure too close to the tree. The play structure and rubber mat can be replaced but not this particular tree.

This tree has sentimental value to the people of Oak Park, it gives character to the park, provides an abundance of shade and is irreplaceable for its canopy size! The southeasterly ash tree represents our community and its heritage so please save the tree with plan 3!

Sincerely,

Marleen Ribis

From: Surese Jaffe
Sent: Wednesday, September 2, 2020 2:49 PM
To: Sandee Covone
Subject: Southeasterly Heritage Tree

It is vital for the board to reconsider the removal of this magnificent tree. It is my understanding that by relocating just one piece of playground equipment, this tree can be saved for future generations.

Our old Oak trees are protected by law, this healthy ash tree deserves protection also. Playgrounds can be remodeled where as trees of this size cannot be relocated. A tree of this size is critical to our environment and says something about a community that protects it.

Sincerely,

Surese Jaffe

Subject: Save the tree with plan 3

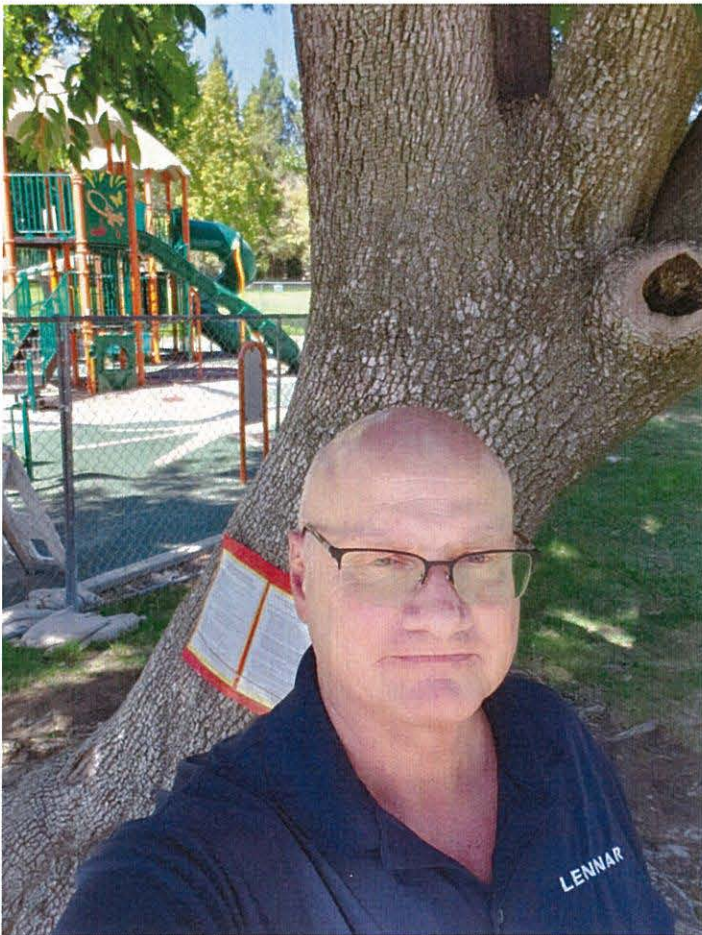

Sandee, Ease make this email part of the record for public input on the tree removal matter at Mae Boyer Park in Oak Park.

Commissioners,

Please consider plan 3 that will preserve this mature tree. I think it is too valuable of an asset to remove - and a redesign of the play equipment is warranted.

I have lived in Oak Park for 25 years and have been to this park almost everyday to walk my dog, exercise and enjoy the shady ambience.

Please save the tree.

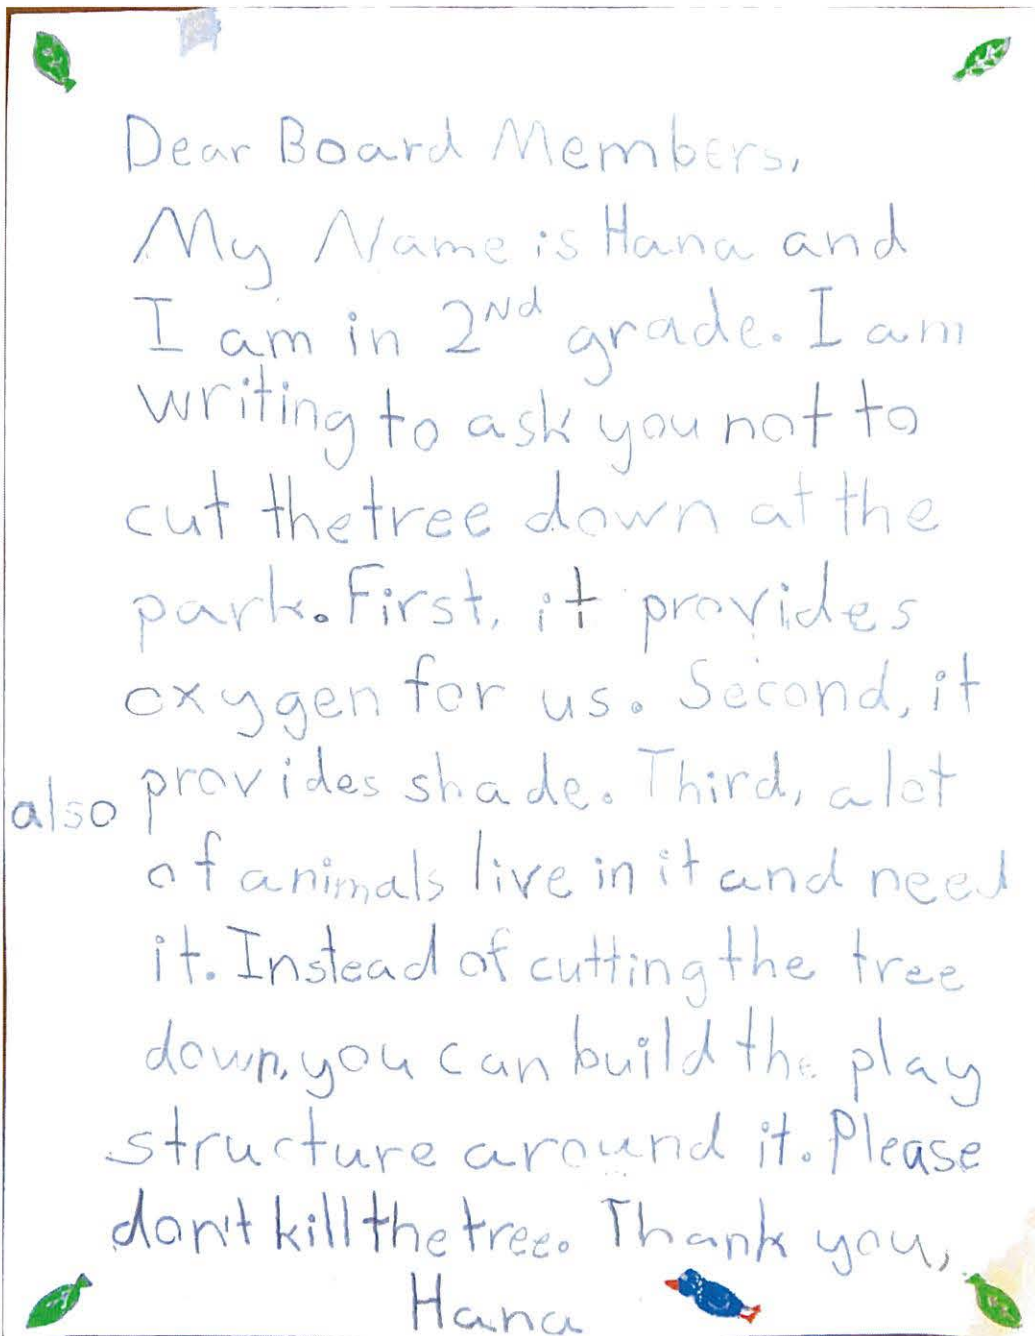

Thank you
Rick Bianchi

Subject: Comment for the Board about Mae Boyer Park Ash tree from concerned 2nd Grader (can you please read this comment at the meeting before my bedtime at 7:30?)

Dear Board Members,
My Name is Hana and
I am in 2nd grade. I am
writing to ask you not to
cut the tree down at the
park. First, it provides
oxygen for us. Second, it
also provides shade. Third, a lot
of animals live in it and need
it. Instead of cutting the tree
down, you can build the play
structure around it. Please
don't kill the tree. Thank you,
Hana

Comments for the Board = Dear Mr. Abele,

We would like to strongly request that you reconsider your vote about the Shamel Ash tree in Mae Boyar Park. This historic tree is one that I grew up playing under and then years later, our children enjoyed playing at the park under the same tree as well. To take out this heritage tree would be a shame and we hope that you consider all options before using this last resort and cutting it down.

We voted for you in the hopes that you would have the community of Oak Park in mind with making decisions that affect our small town.

Please vote to keep the tree!!

Sincerely,

Erikk and Michelle Cass

Subject: SAVE THE TREE WITH PLAN 3

Dear Board Members,

- 1) PLEASE! Revote to Save the Tree!!!
- 2) SAVE THE TREE WITH PLAN 3

Please don't cut down the beautiful southeasterly heritage tree in Mae Boyar park!! This tree has historical significance to this neighborhood. It was planted by Lou Boyar to his wife. It is at least 50 years old. It has been growing in that spot in the park long before a playground was established next to it. It is short sighted to prioritize a playground over the life of a tree. Unfortunately, the planners of the playground did not plan well when they situated the playground right next to the tree. It was poor planning on their part. Perhaps they thought it was a good spot to build because THE TREE PROVIDES SHADE! Instead of removing the tree, move the playground or build a deck over the tree roots and design a playground that incorporates the tree.

I walk through the park every day and admire the beautiful, healthy, large, mature tree that provides shade and oxygen and beauty. In this time of so much loss and uncertainty, please don't take down a tree that is so pleasant to see and walk by when visiting the park.

Be creative and come up with a different solution.

Be Kind and make a positive choice.

PLEASE!

Aimee Montgomery

Smoke Tree Ave., Oak Park

Sent: Wednesday, September 2, 2020 9:47 PM
To: Sandee Covone
Subject: In Support of Plan 3 to Save the Heritage Ash Tree

Dear Board Members:

As a resident of Oak Park, living on Smoke Tree Avenue for the last 18 years, I've come to treasure our peaceful and beautiful community, with Mae Boyer park, and the ash tree now under threat, at its center. Both the park and the tree have been part of Oak Park since its inception. I strongly urge the board to vote in favor of preserving this irreplaceable natural work of art that for so many years has lent us shade and shelter. I support the proposal to relocate the playground equipment. I oppose removing the tree. Let's strive to conserve the natural beauty around us and compromise by voting in support of Plan 3.

Sincerely,
John Montgomery

Subject: Oak Park Ash Tree

Dear Sirs:

I am writing this urgent email concerning the Mae Boyar Ash Tree. I hope that today you will take a revote on the tree. Many residents of Oak Park love our Mae Boyer Park and wish to preserve this tree which provides shade and shelter to so many of us.

I am an Oak Park resident of more than 20 years. My youngest son attended Brookside and our family and now our grandchildren have spent many happy hours at the park.

I hope that you Save the Tree with Plan 3 so that our community can continue to enjoy our beloved park and especially our dear tree. Thank you for taking the time to read my email. We are a lucky community to be living in such a wonderful community.

Perhaps some of you have seen my license plate which reads I ♥ Oakpk. The feeling couldn't be truer. My son loves to call Oak Park "the shire." Thanks again for allowing me to share my thoughts. Wendy and Larry Winningham

To: Sandee Covone
Subject: Tree Removable

Please revote on the item of the playground tree.
Save the tree with plan 3!

I am Sandy Oberman from the "pinetree" on Pinewood Ave. in Oak Park. It was very important for me to save my tree and the reasons given to me to cut it down, were ridiculous. I was working with the Ventura County Transportation Dept. This is different. This tree was planted about the same time mine was planted. I have lived in Oak Park a little longer than the trees have. I am an original home owner and have seen many changes over the years. Throwing away things because they are old is not my philosophy. I am old and I don't intend to move!!!

The Equipment can be moved because it is not alive! When they planned the playground, they should have accounted for growth. Since they didn't, they should move the equipment, not the tree!!!
Thank you for your time and efforts, Sandy Oberman.

Subject: Our Heritage Tree

We have lived in Oak Park for the past 30 years and actually live about three blocks away from Mae Boyer Park. As our children have grown up, we have used the entire park for many things. Our family has many fond memories. This tree is an icon and a symbol of Oak Park. I pass the tree every day driving down Kanan. Removing this healthy tree would be an injustice, just to save some money elsewhere. It would make everybody happy to be able to keep the tree and move the playground. Please reconsider and keep this tree in our community.

Steve & Karen Kopstein

Subject: Save The Tree With Plan 3!

Hi Sandeeps and Committeel

As a 20 year resident and family of 5 with 3 almost grown children that has loved and enjoyed MaeBoyer Park and its green grass and beautiful trees feel very strongly that our Southeasterly Heritage tree should be saved.

Just like some of famous leaders that preserved our forrest and trees for them and future generations to enjoy, we believe that as a community with should do the same and fight to keep our city green with beautiful threes that will hopefully out live several generations.

Please make sure our voice is heard at todays meeting. I will be calling in tonight at 6:30, but just incase there are technical issues like before, I want to make sure our voice of 5 community members gets heard tonight.

Thank you,
Nena Suwara & The Suwara Family

Email =

Comments for the Board = Dear Board,

I support the decision to remove the ash tree at Mae Boyar Park at a cost of \$21,000 rather than relocate the playground equipment at a cost of \$58,000. I'm a big fan of trees, but in this case removing the tree is the fiscally responsible choice and is the correct approach.

Regards,

Jere Gerszewski

Cc: Susan Anderson
Subject: Board meeting September 3

Hi Sandee: I am writing to convey my thoughts on the issue of the Mae Boyar ash tree. I'd like to again state, as I did in my previous communication (July 9, 2020) , my request that the Board take the action necessary to prevent the Mae Boyar ash tree from being removed.

In addition to the points I made in my July 9 email, there is now another piece of information, which is that the Oak Park Planning Committee, under the auspices of RSRPD, has recommended that this larger ash tree be protected, by reorienting the playground equipment slightly. This makes sense to me, and represents what I take to be the views of the interested citizens in the neighborhood of the park. It seems to me that the Staff and Board should take that recommendation and figure out how to implement it.

I and my family have used this park since 1987. We watched our children and their friends use the park and play in the shade of the trees....early on, the "playset" infrastructure was minimal, but that didn't matter, as it was being outdoors, and being protected from the sun, and enjoying the green trees in our rather arid environment. The tree under discussion was a major part of the enjoyment, the more so as it grew larger.

Whatever their virtues, fancy infrastructure and recreation "rooms" and parking lots are nice, but it seems to me they're not the essence....it's nature that's the essence of parkland and nature that makes for a healthy play experience. Not smooth parking lots or sanitized safe zones where nature is suppressed in order toto do what? To convince an insurance underwriter that no child can possibly hurt herself? That's not the way to raise resourceful kids !

Thus my request of the Board is to reverse its earlier decision to cut down the large ash. The Board's competent staff will no doubt be able to readjust priorities to make it fit the budget.

Thanks to the Board for considering my request.

Sincerely,

Robert W (Bill) Anderson
